

REZONING SIGN LOCATION PLOT PLAN

Draw property and proposed sign placement in the box below.

- Rezoning signs shall be placed on the property proposed for development and in full public view along street or road frontages.
- The proposed sign must be located along the property line of the right-of-way at the midpoint of the property.
- A corner lot, or a lot situated on more than one road, will require a sign for each road frontage, meeting the above location requirements.
- In no instance shall a sign be located within 30 feet of an intersection.
- In unique cases due to the configuration of the property, or natural features the Planning Office may approve an alternate sign location.
- Rezoning signs shall be installed by the applicant, a minimum of fourteen (14) days prior to the Planning Commission Public Hearing.
- The Rezoning request will not be heard at that scheduled Public Hearing if the rezoning sign has not been in place for the required time period.
